I believe, as a Board Member, I can contribute to the business aspects of the Association and represent all the members of the Association. I understand that the Board of Directors is charged with the responsibility to govern the affairs of the Association according to the legal documents of the Association and I, myself, must fully understand that the Board of Directors must make its decisions based on what is in the best interest of the community as a whole, not on the interest of any individual owner or group of owners. I believe I can contribute to this decision-making process. If the votes do not go my way, I will fully support the Board's final decision. If I am appointed to the Board of Directors, I will not use my position to gain personal power not available to non-board Association members.
